CyberCorps®: Scholarship for Service

Scholarship For Service (SFS) is a unique program designed to increase and strengthen the cadre of federal information assurance professionals that protect the government's critical information infrastructure. This program provides scholarships that may fully fund the typical costs incurred by full-time students while attending a participating institution, including tuition and education and related fees. Additionally, participants receive stipends of up to \$20,000 for undergraduate students, \$25,000 for master's degree students and \$30,000 per year for doctoral students. The scholarships are funded through grants awarded by the National Science Foundation. [NSF](#)
